## Remote Control Setup

In order for your remote to transmit the correct signals to control the TV, the remote must be programmed with a 3-digit code corresponding to the type of TV in use (see TV Brand Codes listing). Follow the setup for your specific remote:

### Gateway Remote Setup for SRC-200

- Point remote at Gateway and hold **"B"** button until red light flashes;
- Once light is flashing, slowly press and release **7, 8, 9, 0 and last 2 numbers of your street address or apartment number**;
- Press and hold **"A"** button until red light starts flashing; slowly press and release **7, 8, 9** and the **Output number of your TV**;  
(Output 1 = TV on channel 4)  
(Output 2 = TV on channel 7)  
(Output 3 = TV on channel 13)
- Check **TV Brand Codes list** for your specific **TV Code**;
- Once you locate your **TV Code**, point remote at TV and hold **"MUTE"** button until light starts flashing; enter your **TV Code**. It may be necessary to repeat these steps until correct code is found if more than one **TV code** is listed for your brand. Once correct TV Code is found TV will turn off. If you cannot find a **TV Code** for your particular TV you must:
- Point remote at TV and hold **"MUTE"** button until light starts flashing;
- Press **"POWER"**;
- Press **"Arrow Up"** button (pausing one second each time) until TV turns off;
- Press **"SELECT"**;
- Press **"POWER"** button and TV will turn back on.

### Gateway Remote Setup for SRC-300

- Point remote at Gateway and hold the **"LED"** button until red light flashes;
- Once light is flashing, press the record button (**red button**);
- Press the **"B"** button and release;
- Press **0** and **last two digits of your street address** (example: If your address is 453, press 053);
- Press **"LED"** button until flashing and then press the record button (**red button**);
- Press the **"A"** button and then **"1"**(for first TV), **"2"**(for second TV), **"3"**(for third TV);
- Press **"LED"** until flashing and then press the record button (**red button**);
- Press **"POWER"**;
- Press **"Arrow Up"** button until TV turns off;
- Press **"SELECT"** and remote should be programmed. Repeat the above steps to program additional remotes being sure to use **"2"** for the second remote and **"3"** for the third remote.

### Set Top Box Remote Setup for Amino

- Identify the make of the TV that is in use. E.g. Sony, Magnavox, etc.;
- Find the TV make listed in the TV Brand Codes list;
- Simultaneously press and hold **"TV"** AND **"OK"** buttons on the remote;
- After approximately two seconds, the **TV button will light**;
- Release the **TV** and **OK** buttons - **the TV button remains illuminated**;
- Now **enter the 3-digit brand code** according to the make of the TV that is being controlled;
- As each of the digits are entered, the **TV button will briefly flash off and on** again;
- When the third digit has been entered, the **TV button will go out**;
- If a brand code has been entered that the remote does not recognize, the TV button will flash rapidly for a second and remain illuminated. If this is the case, try all brand codes that are listed for that make until a suitable match is found. If no brand code is listed for the TV, try brand codes for Philips and NEC TVs.
- Verify that the remote control works with the TV.

## Digital TV

Over 60 Channels  
Including 9 Local Broadcast Channels
